Between a voluntary and compliance market for carbon removals: the issue of 'corresponding adjustment' in light of the upcoming EU Carbon Removal Certification Mechanism

Monday, 8 November 2021 - 10:30-12:00

Business Hub (Blue Zone)

The EU's certification framework for carbon removal could rely on the EU and national authorities as central buyers, but it could also include private companies wanting to meet their voluntary pledges. The event will discuss the 'no double claiming' principle and how to create an inclusive EU market with steady demand for high-quality carbon removal.

Speakers

- **Christoph Beuttler**
Head of Climate Policy, Climeworks
- **Hannes Junginger-Gestrich**
